STACY EVERS

# 1st Design Pitch

Client: Visitors to the CPA building, art students  
Problem: Unknown building use to visitors  
Solution: Design aesthetically pleasing foyer that recognizes the building type

## Ideas/Inspiration:

- Use alcove to display student's work
- Easy to clean
- Simple to construct
- Use spotlights on artwork...
- Use a unique piece of artwork to define

{Before}

Concept: Clean, modern, sophisticated

**Problems:**

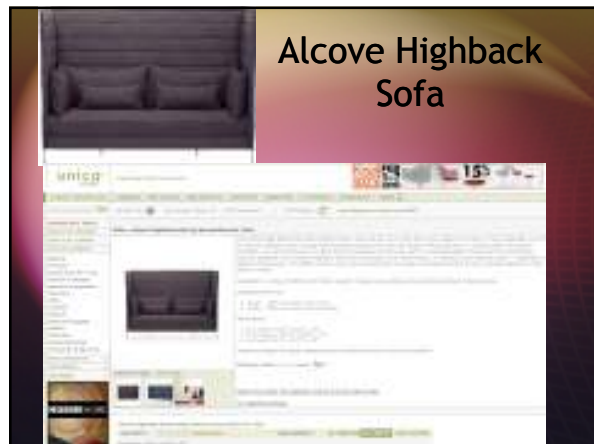

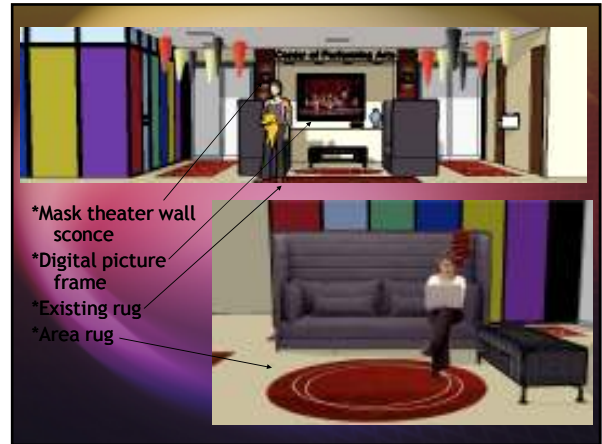

- ♦ Furniture = TOO expensive
- ♦ Lighting on side of alcove covers up needed wall space
- ♦ All students want furniture with backing
- ♦ All office workers want space to be quiet (even though students need/use this area to converse or sing)
- ♦ Outside cross lighting into courtyard is distracting and unnecessary

**FINAL DESIGN PITCH**

**THE**  
**“Sing all you want,  
 no one will hear you”**  
**PROJECT**

### Solution:

- ♦ Acoustical panels on office windows
- ♦ Acoustical cones hanging from ceiling
- ♦ Acoustical seating
- ♦ Cross lights shining over top building
- ♦ Wall Sconces on side of alcove
- ♦ New rugs
- ♦ Drywall alcove and add light fixtures
- ♦ Buy digital picture frame to display performance pictures

Alcove Highback Sofa

Bix Lounge Bench

## Cloth Acoustical Panels

**Cloth Acoustical Panels**

Available in a variety of colors and textures, these panels are designed to absorb sound and reduce noise in your space. They are made from high-quality cloth and are easy to install and maintain.
